**DETAILED ACTION**

***RESPONSE TO AMENDMENT***

1. The applicant's amendment filed on 07/27/2006 has been fully considered and made of record.

**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee. Authorization for this examiner's amendment was given in a telephone interview with Patrick Griffin on 8/7/2006.

The application has been amended as follows:

2. In claim 1, line 3, the phrase "the braze process" should read - - a braze process - - to overcome the lack of antecedent basis language.
3. The non-elected Claim 2 is cancelled.
4. The title has been changed to: "A METHOD OF MAKING A BRAZED METAL HEAT EXCHANGER CORE WITH SELF-SHEARING REINFORCEMENT"
5. The abstract has been changed to: "A method of making a radiator core reinforcement that self shears in the braze oven as strategically placed voids in the reinforcement erode away under the flowing action of the melted surface braze layer."

### **REASONS FOR ALLOWANCE**

6. The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the prior art fails to teach or fairly suggest the series of steps recited, particularly the steps of brazing said core at said predetermined temperature and duration, during which melted braze material runs vertically downwardly, guided by said void edges and continually across said webs, said webs being sufficiently thin such that, during the braze process, running braze material erodes and severs said webs and thereby severs said elongated member completely.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sarang Afzali whose telephone number is 571-272-8412. The examiner can normally be reached on 7:00-3:30 M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Bryant can be reached on 571-272-4526. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
